

CALPHOS™ An Excellent Source of Available and Slow-Release Phosphorous

Are you looking for an organic phosphate source that provides the benefits of phosphorous and calcium? Calphos™ delivers and eliminates handling and application headaches with an easy to use product.

PREMIUM PRODUCT

Calphos™ is an environmentally safe natural source of soft rock phosphate and calcium. It provides all of the benefits of calcium and phosphorous without the handling problems.

Calphos™ granulating process allows for clean, nearly dust-free applications while being non-toxic and non-corrosive.

EASY TO APPLY

The granulating process produces a granule that allows for easier handling, blending and spreading. Ideal for agriculture, turf, ornamental, athletic field, and organic growing and gardening applications, Calphos™ can be applied using conventional fertilizer equipment.

PACKAGING AND PERSONALIZED SERVICE

Calphos™ comes in two grades: powder and granular. Packaging options include 50lb bags and bulk bags. Calphos™ is available in truckloads delivered or in pallet quantities from our warehouses in Portland, OR and Stockton, CA. With our personalized service, you can be assured that Calphos™ gets to you when you need it.
